Are you interested in building skills that could help you work in the tech industry?

Game Design and Employment Summer Workshop

WHAT
- Free 4-week tech skills program
- Learn Basic Game Design Skills
- Explore Different Tech Careers
- Practice Job Skills

WHEN
- Summer 2022: July 11th - August 5th
- Daily from 1:00 PM - 4:00 PM EST

WHERE
- Online via Zoom

ABOUT
This program is for students ages 14-21 on the autism spectrum who will participate in a research study and workshop at Tech Kids Unlimited.org, a non-profit education organization, during Summer 2022.

The program will help us learn how to more effectively teach students who learn in different ways. Before, during, and after the program, students will complete surveys and answer questions about their goals and interests. Students in the study will earn a $50 gift card for attending the program in full, completing assessments, and providing necessary documentation.

ELIGIBILITY
- Between the ages of 14-21
- Have never taken a TKU workshop before
- Must provide formal documentation of Autism Spectrum Disorder
- Available daily for the entire four week period.
- Available for two 1.5-2 hour long assessments: one the week before and one the week after the workshop
- Able to participate with a computer
